Our Medical Products for Monitoring Dräger

MEDICAL ARMS FOR MONITORING MONITORING DRÄGER INFINITY M500 / M540

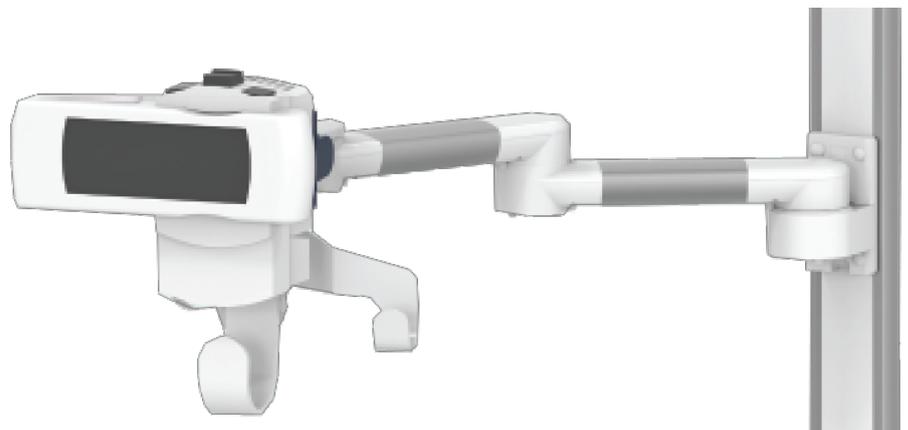

Orient and position your Dräger M500/M540 Monitor effortlessly from a wall, Din Rail, pole

This product line has been designed to meet all the needs of many users in the healthcare sector for mounting Dräger Infinity M500 / M540 monitors. Medical monitoring arms help to create a more spacious, quiet, ergonomic and individual medical workstation.

However, not all monitor medical arms are identical. We offer several types of arms, each of which is designed for a specific application: depth adjustment, height adjustment or simply both.

We assist you in choosing the monitor medical arm that best suits your needs.
Position your monitor at the height adapted to your visual comfort.

We have all the solutions and offer you the widest choice of professional medical systems and supports compatible with the widest possible range of medical monitors.

Anti-bacterial properties:

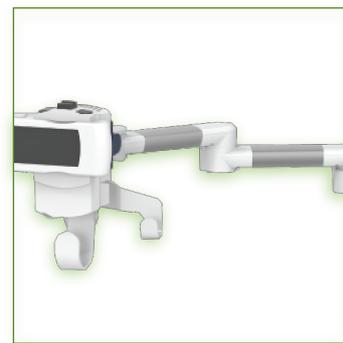

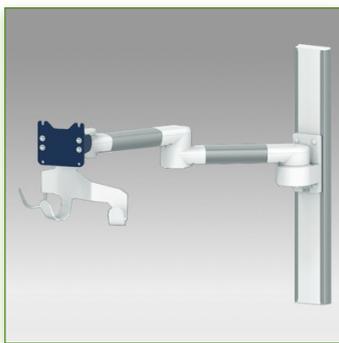

IT medical arms are now designed with Microban antibacterial protection, a revolutionary treatment that guarantees optimal hygiene. IT medical arms integrate Microban and other antibacterial agents into all medical products. It inhibits the growth of bacteria of all types. This is not a surface treatment.

It is 100% in the totality of the product.

It does not alter the physico-mechanical properties of the medical arm lift system. Simulations over 30 years show that 100% of the antibacterial properties are maintained.

All medical articulated arms incorporate Microban. Microban is the world's leading provider of anti-bacterial solutions. It has been successfully applied for more than 35 years in a wide range of products used in the hospital, construction and food industries.

Anti-bacterial properties:

IT medical arms are now designed with Microban antibacterial protection, a revolutionary treatment that guarantees optimal hygiene. IT medical arms integrate Microban and other antibacterial agents into all medical products. It inhibits the growth of bacteria of all types. This is not a surface treatment.

It is 100% in the totality of the product. It does not alter the physico-mechanical properties of the medical arm lift system. Simulations over 30 years show that 100% of the antibacterial properties are maintained.

All medical articulated arms incorporate Microban. Microban is the world's leading provider of anti-bacterial solutions. It has been successfully applied for more than 35 years in a wide range of products used in the hospital, construction and food industries.
